Medium well	slightly pink to brown centre	60°C
Well done	fully cooked, no pink centre	65°C

The Wagyu Prime Rib

Served with Idaho steak fries potato, wild forest mushroom fricassée and light black summer truffle jus.
Per kg (For 2 persons) 618

Wagyu cattle were originally draft animals selected for physical endurance. They have more intra-muscular fat cells, known as marbling and are regarded as very high quality beef. They are graded on meat; fat colour and marbling of the eye muscle using the AUS-MEAT Reference Standards. Marbling grades vary from 1 - 9 with 6 considered a perfect balance of lean meat and fat content.

Blackmore

An award-winning 100% Full Blood Japanese Wagyu Beef, it has an intensively sweet, delicate and persistent flavour.

Blackmore Wagyu Beef achieves a consistent high marbling score of 9+ (Australian highest score). The marbling melts at room temperature, giving the meat its moisture and tenderness.

Blackmore Wagyu Cube Roll

120z/340g. 698

Blackmore Wagyu D Rump

80z / 220g. 220

Note:

Australia first imported Wagyu in 1990 and began a breeding programme using artificial insemination. In the mid 1990's Australia imported full blooded Wagyu bulls and cows from the United States to enhance their Wagyu breeding program. Over the years, the Australian Wagyu breed has gained in strength and popularity for intense marbling and taste.

PRIME “Cut by Cut”

Filet Mignon

The tenderest beef cut. Meat is succulent yet lean, elegant and convenient. Velvety buttery texture accompanied with subtle flavour in a compact shape.

Skirt Steak

A deep, rich, beefy flavour. When slicing, cut through the grain. Best be grilled, but must marinate first.

Prime Rib

Rich in flavour, juicy, tenderness and majestic appearance. The grand champion of beef roasts. One of the tenderest beef cuts. Fine-grained with generous marbling, that melts in your mouth.

Ribeye Steak

A rib steak minus the bone. A fine-grained steak, that is rich with beefy flavour. Juicy meat that is generous in marbling texture throughout the surface. One of the tenderest beef cuts.

T-bone Steak

Combines two lean, tender steaks. Consist of both top loin (strip) and tenderloin steaks, which are connected by a tell-tale T-shaped bone. If diameter of tenderloin is smaller than golf ball, it's usually considered a T-bone. If larger than a golf ball, it is considered a Porterhouse.

Short Ribs

Tender, juicy and meaty; can be cut long, short or boneless. A less tender cut. Take full advantage of its great taste when is braising.

Striploin / Sirloin Steak

Lean, tender and full-flavoured. Meat is best for a quick-cooking. Steak with fine-grained that is sturdy in texture.

Oyster Blade Steak

Well-marbled, tender and juicy; second in tenderness only to tenderloin and about half the cost. Boneless steak has excellent beef flavour.

The steaks are cross-cut from the top blade. It has a line of tough connective tissue down the middle, creating a tough steak best suited to braising. It is becoming more popular and profitable to abstain from cross cutting the top blade and instead produce flat iron steaks which eliminate the connective tissue.
